Travel Certificate

Name: _____

This is to certify that the person named on this certificate has had a surgical operation which makes it necessary for him/her to wear, at all times, a bag attached to their abdomen to collect output from their bowel or bladder.

If you need to examine the bag, a qualified medical person should be present, as any interface may cause leakage and embarrassment to the certificate holder.

The certificate holder may also be carrying an emergency supply kit including bags and accessories.
